examines shame from a positive psychology perspective, from the angle of defining the concept as a psychological and cultural construct, and with regard to practical perspectives on shame across cultures. The volume provides sound foundations for researchers and practitioners to develop new models, therapies and counseling practices to redefine and re-frame shame in a way that leads to strength, resilience and empowerment of the individual.

The Information Audit is a process by which a library or information centre

reviews and assessments its holdings, services, etc. This topic is one that has generated much interest over the last few years. The Information Audit: A Practical Guide will take the information professional through the stages of conducting an audit, from planning and carrying out to assessing and presenting the results and how to implement findings. As an aid to understanding, the book contains four international case studies to illustrate the information audit process in action. The Information Audit is directed at library managers in all sectors, but
