Learn the essentials of management accounting in a flash! This hands-on self-teaching guide covers the fundamentals of management accounting, including cost accounting, how to develop and use information for costing products and services, decision making, operational budgeting, performance evaluation, and other important subjects and provides an update on recent developments in the field. You will learn the key aspects of management accounting as they apply to both for-profit companies and nonprofits.

The books in the Test Yourself series aim to help students pass quizzes, tests and exams. Readers can use e Test Yourself books to check their knowledge of a subject and pinpoint exactly the areas in which they need more help. '

As the long-time #1 best-seller, Garrison has helped guide close to 3 million students through managerial accounting since it was first published. It identifies the three functions managers must perform within their organizations - plan operations, control activities, and make decisions - and explains what accounting information is necessary for these functions, how to collect it, and how to interpret it. Garrison's Managerial Accounting is known for its relevance, accuracy, and clarity. It is also unique in that the authors write the most important supplements that accompany the book: solutions manual, test bank, instructor's manual, and study guide making them both of high quality and extremely consistent with the textbook.

Quickly get up-to-speed in all basic accounting principles and procedures and apply that knowledge to real-world financial decisions and requests The McGraw-Hill 36-Hour Accounting Course has been the gold standard for anyone looking for a fast, no-nonsense primer in all the fundamentals of financial, managerial, and tax accounting concepts.
