Complete piano transcription book from Volume 1: How to Play Jazz and Improvise featuring Jamey Aebersold from the world's most popular improv method. Every note is written exactly as played by Jamey Aebersold with chord symbols, passing chords, pedal markings, and more, including a total of 40 minutes of efficient, musical piano accompaniment written for two hands. Why you should consider this and other Aebersold piano voicing transcription books: Ever listen to a great jazz pianist and wonder "what's he doing there?" Now you'll know! Here is an opportunity to see real jazz piano voicings and comping over real songs in real live musical settings. These historic books contain note-for-note transcriptions, exactly as recorded, of the exciting piano accompaniment from the world famous Aebersold play-along series. Not just for pianists, there are many ways for all musicians to use these wonderful musical tools: Pianists: First, listen closely to the pianist on the respective play-along recording (sold separately). Next, reading from the book, play along with him, imitating his style. Finally, turn him off (using the special stereo separation on all of our CDs) and play along by yourself with the bass and drums. With the techniques learned, you'll soon be improvising your own accompaniment! Non-Pianists: Horn players, arrangers and vocalists can use these books like dictionaries to look up favorite voicings they've heard on a particular play-along track. Written clearly for two hands, even the most novice pianist can play many sections of these books. Teachers / Educators: Give your combo piano students instant jazz voicings and harmonies over a variety of Standards and styles. As personal tools, they will enhance your own understanding of voicings and voice movement and provide you with better skills for accompanying your students.

This long awaited book includes easy-to-read music, chord symbols, and guitar frames above each example for the non-reading guitarist. Also included is a CD of Mike playing the voicings with the Maiden Voyage play-along. Special CD stereo separation allows you to eliminate the guitarist and sit in with just the bass and drums. These voicings are real world authentic chord voicings, not simplified sterile examples. It's a great opportunity to not only learn great jazz voicings, but to see how these voicings can be used to navigate blues, rhythm, and great standards. Band directors will love this one because now all members of the rhythm section can practice their comping with this world famous play-along (a book for pianists, drummers, and bassists are also available).

This collection of recorded and transcribed jazz piano arrangements is more than just a play-along compilation. It allows a student to observe in detail how an accomplished jazz pianist plays with a group, creates solos and accompaniments ("comping"), and constructs jazz harmonic treatments through chord substitutions and special voicings. Noreen Grey Lienhard, an award-winning jazz pianist and one of the most widely published jazz educators, has created this book and compact disc collection of ten truly wonderful jazz standards in ballad, Latin, and up-tempo settings. She has meticulously transcribed each of her solos and chord voicings so that students may, through analysis, better understand the art of piano jazz while immersing themselves in a proper jazz environment. In addition to the transcribed solos, this volume contains a typical lead sheet styled section for all ten tunes, often with Noreen's suggested chord voicings. CD 1 features Noreen as pianist with instrumental back-up. CD 2 eliminates the solo piano track. As with all books in this series, it includes a unique lay-flat binding to help keep the music open on the music stand.
